Open Government

As the state's public broadcaster, SDPB is committed to ensuring citizens are informed about legislative activities, policy debates, and decisions impacting their lives. Through live broadcasts, detailed reports, and in-depth analyses, SDPB brings the workings of the state government to the public.

During legislative sessions, SDPB offers live coverage of all committee meetings and floor debates. Additionally, SDPB's team of experienced journalists provides context and commentary, helping the public understand the implications of proposed laws and regulations.

SDPB also produces special programs exploring the broader impact of legislation on communities, businesses, and the state's economy.

SDPB's online platform, SD.net, and its accompanying app offer easy access to live and archived coverage, making it a valuable tool for anyone seeking to engage with state politics. Through its extensive coverage, SDPB fosters transparency, accountability, and civic engagement in South Dakota.
